Team Is Our Strength

Message From Management

Tanveer Singh
Director Engineering

It is a pleasure to address you with my thoughts in this month's newsletter.

At Esteem, we have consistently upheld our commitment to exceptional quality, advanced technical proficiency, and stringent adherence to timelines. It is important to reinvigorate these core values that have defined us over the years.

Esteem's family is expanding at an fast pace. I am confident that the influx of fresh talent will help push our boundaries even further.

As we stand on the cusp of the monsoon season, a well planned, meticulous approach will enable us to minimize any potential impact on our project timelines. Simultaneously, it will allow us to savor the sheer joy these refreshing rains bring along. Simple pleasures of life, such as a hot cup of chai accompanied by delectable pakode is matchless. Let us also embrace and cherish these moments of tranquillity amidst our pursuit of excellence.

Enjoy.

Dinesh Khare
Sr. Technical Advisor

We are in the era of "Artificial Intelligence". Our civilisation travelled from Stone age to Artificial Intelligence with lot of efforts, research & innovation. The same is also true for our organisation.

Engineering is our strength and the pillar of ESTEEM's performance. Hence upgradation to latest technology along with updated data bank built up on our experiences and lesson learnt, is to be done on continuous basis to deliver state of the Art technology timely with optimum cost.

Let's work as a team to widen our spectrum and keep our flag high.

Best Wishes

Ongoing Projects

All modules are dispatched except few items.
Total project nearing completion.

Job no 245 :
Engineering & Procurement completed. 50% fabricated items dispatched. Manufacturing nearing completion. Erection at site commenced.

Ongoing Projects

News From Projects

Job no 251 :

Engineering nearing completion. All long delivery and critical items ordered. Fabrication in progress. 1st lot of radiant panels planned to dispatch shortly.

Job no 252 :

Erection completed and successfully commissioned.

Ongoing Projects

Job no 257 :

Engineering nearing completion
Long delivery items ordered. Manufacturing commenced.

Job no 258 :

Plot Plan finalised. Process Engineering completed.
Detailed engineering of mechanical items nearing completion.
Procurement is expected to be completed progressively within 2 months.
Manufacturing commenced.

- **Job no 260 :** Basic engineering completed. Procurement commenced.

WinHeat[®]

Fired Heater Thermal Rating and Simulation Software Suite

- All Fired Heater Configurations
- Property generation package
- Multiple segments and processes
- Configurable for advanced users allowing complex scenarios
- Combustion, Pressure Drop, Refractory, Tube wall calculations in-built
- Tested and Validated (in use since more than two decades)

Prasenjit Panda
Mechanical Engineer

Des Raj Bhogal
Foreman Mechanical

Satish Singh
Sr.Instrumentation Engineer

We extend our warmest welcome to you all and look forward to a fruitful and long-lasting relationship.

Ink Drops From Mr. Gurcharan Singh's Fountain Pen

Belonging to the generation that cherished fountain pens, I recall an era when pens, ink, and blotting paper were integral part of life. Rewarding good academic work with a fountain pen was common, a practice that may perplex today's tech-savvy generation. Even in our tech-dominated world, the allure of fountain pens persists.

Why do some still prefer fountain pens in this digital age? The appeal lies beyond nostalgia, resting in its continual usefulness. There are several reasons for this ongoing preference.

Firstly, fountain pens' smooth, fluid ink ensures an effortless writing experience, creating an unmatched rhythm of words on paper.

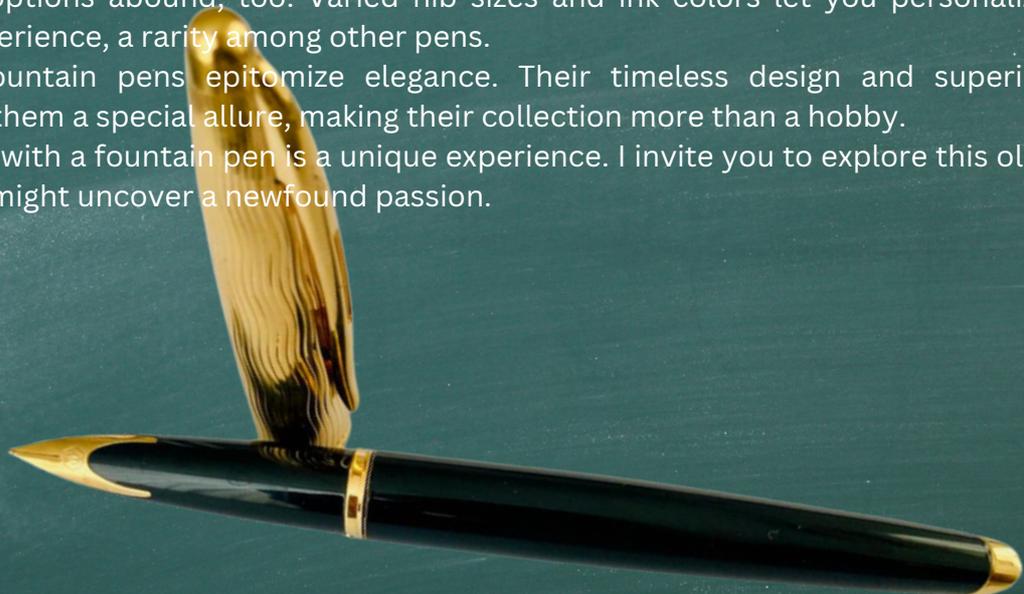

Secondly, their ergonomic design, requiring less pressure to write, alleviates hand fatigue—an asset for those frequently documenting thoughts or work.

Fountain pens can improve your handwriting, with their fluid motion encouraging better writing style.

Customization options abound, too. Varied nib sizes and ink colors let you personalize your writing experience, a rarity among other pens.

Furthermore, fountain pens epitomize elegance. Their timeless design and superior materials grant them a special allure, making their collection more than a hobby.

In short, writing with a fountain pen is a unique experience. I invite you to explore this old-school joy; you might uncover a newfound passion.

Save The World For Future
Generation

15th June is observed as world environment day. It is a day to remind the whole world to save plants and keep our place clean.

As a part of modern civilization, we are in the process of removing greenery all around. It is causing thermometer parameters are very high and making our world unhealthy.

In earlier days, there were no Air condition systems. Even electric fans were not there. People were happy and had a comfortable life. We need modernization and development. But we have to save our world for future generation. Balance of environment and modernization is very important.

Let's pledge to save the world by planting trees.

Prashant Kumar
